The content is object of Italian Patent Application No. 1102018000006908 filed on 04.07.2018

Description

A silky and evanescent texture that gently touches the skin, releasing functional active principles into the deeper layers of the epidermis. Its powerful Polyphenol complex, obtained from **Collesi Blonde Craft Beer** with an exclusive "patent-pending" technology, fights the effects of free radicals. Hyaluronic Acid restructures the cells to provide tone and elasticity. Allantoin performs an intense reparative and reconstructive action. Ideal for all skin types, it's a true beauty elixir that minimizes imperfections and restores a smooth and compact appearance to the face. From the first applications, wrinkles are diminished, the skin's texture is refined, and the skin appears regenerated and luminous.
