EYE CONTOUR CREAM

The content is object of Italian Patent Application No. 1102018000006908 filed on 04.07.2018

Description

An impalpable formula that protects the most fragile zone of the face, thanks to the Polyphenols from **Collesi Blonde Craft Beer**. These precious functional properties, obtained with an exclusive "patent-pending" technology and reinforced by Coenzyme Q10, release an intense antioxidant action. A delicate and effective cream, it's designed to reduce fine lines and imperfections caused by external agents and countless imperceptible movements of the eyelids. Nourishing and soothing Calendula Oil gives elasticity and restores vitality and tone to the skin. Vitamin B contributes to alleviate signs of fatigue and reduces bags and puffiness. Vitamin E helps to minimize the signs of time and Acmella Oleracea smooths out fine expression lines. The root extract of Astragalus Membranaceus, used in Traditional Chinese Medicine, is a powerful energizer. The cream's intense synergistic action redensifies the skin around the eyes, which is four times thinner than the rest of the body, and leaves this area looking more relaxed and rested, giving a new light to the whole face.

TO USE

apply in the morning and evening to perfectly clean skin in the eye area. Tap in with the fingertips, avoiding direct contact with the eyes. For external use only.

- For the eye contour area
